

PepperJet Derringer

5" projectiles available

Pepper spray cartridge

Dye marker cartridge

Features

- **Air Derringer pattern:** Features in palm-sized, compact and double-barrel design that is easy to carry.
- **Multiple air refill solutions:** Enables refilling gas via our 3500PSI N2 gas cartridge, PCP machine or manual air pump until the pressure reaches 4000PSI which can be maintained for a long period without loss.
- **Supporting 5" caliber projectiles:** N2.5 can fire our pepper spray cartridge, dye marker cartridge, fin stabilized rubber ball/training ball and any other 5" caliber balls/projectiles available on the market.
- **Reusable air cartridge:** The unique & innovative charging system facilitates refilling gas via a 1 to 2 fill adapter and a 12g N2 gas cartridge without the needs for a large air tank or electric pump.
- **Long distance defense:** Allows deployment of a pepper jet at a long distance to stop the target without causing permanent damage

Specification

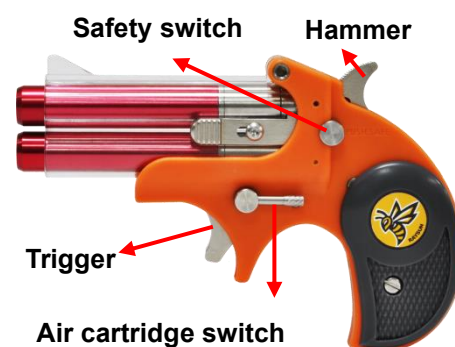

Caliber	0.5 inches	Shooting mode	Single(alternative)
Load capability	2 projectiles	Propellant	PCP air cartridge
Effective range	4-5m	Air refill from	N2 gas bottle
Dim/weight	5.14 x 3.7 x 0.95(inch) / 0.48 pound		
Material	Reinforced plastic housing		

Standard package

1. Main unit with belt pouch*1
2. Burst disk(20pcs/box)*1
3. Air cartridge*4(Refillable)
4. 3500psi N2 gas cartridge*4
5. Pepper spray cartridge*4(refillable)
6. Air cartridge disassembly*1
7. Ball detent adapter*2
8. Fin stabilized rubber ball*4,
Fin stabilized training ball*4
9. 1 to 2 fill adapter

Parts name:

Quick air refill

Enable to fill 2 air cartridges
